PROFILE

First Class Fashion Communication and Styling graduate, winner of the **Fashion Moving Image Award at Graduate Fashion Week**, with a final major project purchased by De Montfort University for its faculty archive. I shoot, style and edit in-house — lighting and running studio sets, directing talent, cutting film and delivering finished assets — so a brand gets campaign, product and social content from one person instead of a crew. Currently teaching studio photography at university level alongside freelance content production for independent fashion labels.
